ShortPopUp Download

This utility will scan it's starting directory for all files and display them as a popup menu. Once you select a menu item, it will execute it. ShortPopUp supports multiple instances of the application. Each instance will have its own pop up menu with it's own settings. ShortPopUp supports multiple languages. Each language is associated with it's own menu. ShortPopUp has it's own menu which is pre-defined. You can now add your own menu items. ShortPopUp does not support 'likes' so the pop-up menu will always have it's last item selected. ShortPopUp can be run from a command line or from a shortcut on your desktop. ShortPopUp allows you to specify the following via the command line: - Automatic pre-selection of the 'last' menu item (ignores 'likes') - File extensions to remove (incl. '.', '..', '+') - Files not to scan (incl. ") - Do not show hidden files - Do not show files in the root directory - Do not show directories - Do not show sub-directories - Show volume information - Show file sizes - Show process information - Show uninstall registry information - Show anti-virus names - Show explorer property names - Show explorer extension names - Show explorer internal names - Show explorer workspace names - Show explorer total size - Show explorer sub-tree size - Show explorer properties names - Show explorer strings names - Show windows in the taskbar - Show windows in the desktop - Show windows in the start menu - Show windows in the task tray - Show windows in the system tray - Show menu names - Show context menu names - Show command line history - Show desktop directory names - Show desktop size (in blocks) - Show desktop size (in bytes) - Show desktop shortcuts - Show desktop tray icons - Show file locations - Show device numbers - Show hidden files - Show home directory names - Show host information - Show host addresses - Show host IP addresses - Show host information - Show host information (split into two windows)

What's New in the ShortPopUp?

[Main Window] [Welcome Window] [Window Control] [File Info] [Common] [Window Control] Description: ShortPopUp allows you to "pop up" common Windows controls. From the Start Menu, you can navigate to the Control panel with one click. You can also launch the Control Panel by double-clicking a file named "ControlPanel.exe".
